Applicant

COLGATE-PALMOLIVE COMPANY

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

**WHAT IS CLAIMED IS**

1. A toothbrush comprising a handle, a flexible head secured to the handle, the head being flexibly mounted to the handle, the head having an upper face with fingers flexibly mounted thereon, and ribs connecting the fingers to the upper face, whereby flexure of the head under compression or expansion causes a lateral movement of the fingers relative to the longitudinal axis of the toothbrush.
2. The toothbrush of claim 1 wherein at least a portion of fingers comprise a soft elastomeric material.
3. The toothbrush of claim 2, wherein the composition of the rib material is stiffer than the elastomeric material of the fingers.
4. The toothbrush of claim 1 wherein the fingers are mounted in openings in the flexible face of the head.
5. The toothbrush of claim 1 wherein the ribs interconnecting the fingers and flexible face are formed from polypropylene.
6. The toothbrush of claim 1 wherein multiple fingers are interconnected by ribs on one side of the fingers whereby all fingers connected by the ribs move in one direction when the head is flexed.
7. The toothbrush of claim 1 wherein multiple fingers are interconnected by ribs on opposite sides of
